

ENGINEERED PARTS & MOVING SOLUTIONS

INNOVATIVE TECHNOLOGY FROM APPLIED®

TRUSTED BRANDS. EXPERTISE. SUPPORT

WWW.APPLIEDNZ.COM

SKF INDUSTRIAL PRODUCTS

SKF has a unique understanding of rotating equipment and how machine components and industrial processes are interrelated. SKF provides a wide range of products and related technologies to OEM and aftermarket customers around the world, in every major industry, at each phase of the asset lifecycle.

SKF Power Transmission is a product line that provides a complete range of high quality belts, chains, couplings, pulleys, sprockets, bushings and hubs.

SKF manufactures virtually every type of ball and roller bearing.

A wide assortment of plain bearings, rod ends and bushings are also available. The design and material variants for these bearings are quite extensive.

SKF vibration measurement tools put the benefits of condition-based maintenance within reach for expert and novice users alike. Engineered for ease of use, this range of vibration measurement tools offers a simple way to begin using machine data to improve overall equipment effectiveness.

Garlock

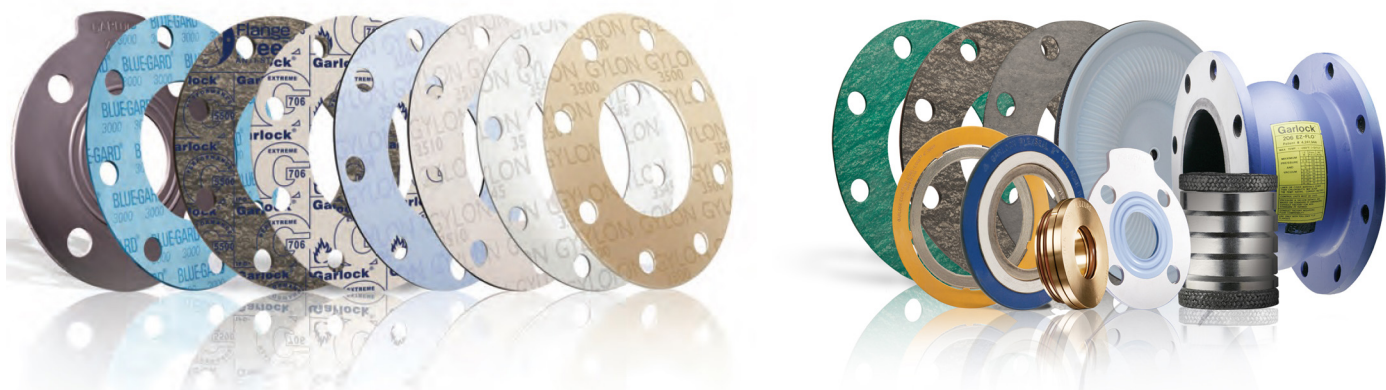

SEALING TECHNOLOGIES®

an EnPro Industries company

SEALING TECHNOLOGY

WORLD'S BEST SEALING PRODUCTS WITH WORLD LEADING SERVICE

Our staff will work directly with your team to identify the most effective sealing solutions for fluid transportation systems, improving production and reducing down-time whilst safeguarding employees and sensitive equipment. Applied® offers you pipe sealing products, metallic gaskets, compression packing and expansion joint systems suited for custom and general applications. Whether you're developing your processing plant or specifying a sealing system for wastewater piping, rely on the safety and durability of Garlock sealing products and the value only Applied® can offer.

HOSPITAL AND MEDICAL AIR QUALITY

A medical air supply is regarded as a vital part of every hospital infrastructure and is one of the few medicines that is manufactured on-site. Compressed air can be used for a wide variety of applications such as anaesthetics, lung ventilation, intensive therapy, pneumatic surgery tools, nebulisers and many more, where the quality of the air is vitally important.

Parker domnick hunter breathing air purifiers are designed to reduce the concentration of potential contaminants, identified as hazardous to the human respiratory system to acceptable levels detailed in published International Breathing Air Standards.

Parker domnick hunter BA-DME breathing air purifiers provide integrated filtration and adsorption stages to deliver the air quality required for medical applications.

Parker domnick hunter purifiers have been independently tested to the European Pharmacopoeia Medical Air Standard. BA-DME range is ideal for point of use multiple personnel protection at medium flow rates.

The Parker domnick hunter BAS-3015 is a portable breathing air purifier housed in a compact, weatherproof, impact resistant case. This purifier includes a pressure regulator and gauge and can facilitate up to 5 users simultaneously. Also available with an optional CO monitor.

FEATURES

- 6 Purification stages
- Use with any compressed air supply

FEATURES

- 3 Purification Stages
- Integral pressure regulator
- Portable
- Use with any compressed air supply
- Integrated CO Monitor (optional)
- Pressure gauge

COMPLETE RANGE OF LUBRICANTS & CLEANERS

FOOD GRADE WHITE GREASE

CRC FOOD GRADE WHITE GREASE PROTECTS EQUIPMENT AGAINST RUST, OXIDATION AND WEAR.

Description:
Accepted for incidental food contact. Category 10 Lubricant Type 'A' Excellent adhesion, resists throw-off and shear breakdown. Wide operating temperature range from -18 degrees celsius up to +232 degrees celsius. NLGI Grade #2 grease.
Applications: For use on ovens, dryers, gears, valves, pumps, winches, conveyors, linkages, hoists and O-rings.

A MULTI-PURPOSE SILICONE SPRAY FOR FOOD PROCESSING AND HANDLING APPLICATIONS.

Description:
It forms a colourless, odourless film that lubricates and insulates in most metal-to-metal applications. It can be used as a release agent. Wide temperature range: -40 degrees C to +200 degrees C.

A NON-FLAMMABLE UNIQUE BLEND OF SYNTHETIC LUBRICANTS THAT UTILISES PTFE, ANTI-WEAR AND EXTREME PRESSURE ADDITIVES TO INCREASE EQUIPMENT LIFE AND PERFORMANCE.

Description:
Its long lasting film minimises surface contact thereby extending lubricating intervals. NSF H1 registered for incidental food contact.

A GENERAL PURPOSE NON-SILICONE LUBRICANT FOR USE ON ALL FOOD PROCESSING EQUIPMENT.

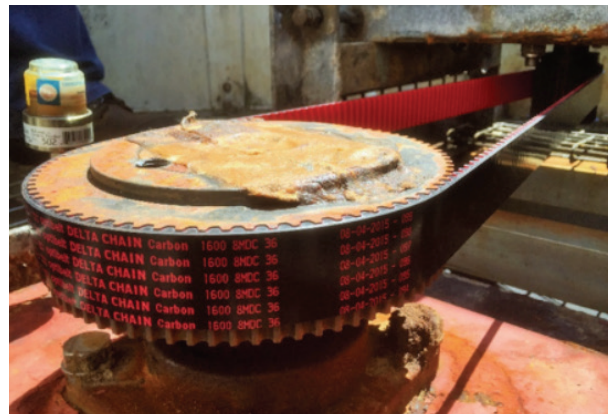

Description:
It penetrates and loosens rust, scale, dirt and corrosion to free parts and fasteners on food processing equipment. NSF H1 registered for incidental contact. Contains no silicone

OPTIMUM PRODUCTIVITY

AIR HANDLING UNITS – RED POWER AND COLLING TOWERS – DELTA CHAIN

Optibelt Delta Chain Carbon is made from cast polyurethane and provides a high level of reliability in applications with severe corrosion. This was evident in this installation on a water chiller where standard v-belts were affected by the corrosive environment.

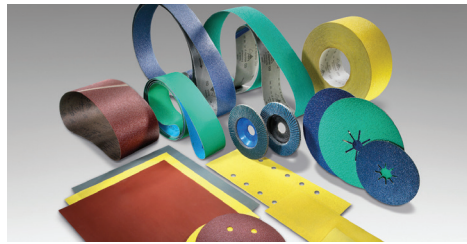

Optibelt Red Power 3 maintenance free v-belts were installed on an Air Handling Unit which eliminated the need to re-tension the drive and improved the efficiency of the drive.

sia ABRASIVES – YOUR KEY TO A PERFECT SURFACE FINISH

Bonded Abrasives

Coated Abrasives

Non-woven Abrasives

sia ABRASIVES - THE RIGHT PRODUCT FOR ANY MATERIAL

As one of the world's leading Abrasives manufacturers sia Abrasives offers a wide range of high quality and efficient bonded, coated and non-woven abrasives for all cutting, grinding, blending, finishing and polishing applications. sia products provide you with the right solution for the needed surface finish on a wide range of materials.

REDUCING THE RISK OF INJURY IN THE WORKPLACE

Whether you're moving heavy equipment, linen, food, waste, or other mobile equipment, Electrodrive can help your staff to stay safe and demonstrate compliance with the 'Hazardous Manual Tasks, Work Health and Safety Code of Practice'.

Moving Heavy Equipment

Stock Delivery

Linen Transport

Waste Management

Tug Evo 1T & 2T

Tug Compact

Tug Tough 10T & 20T

Linen Movers

Meal Delivery System Movers

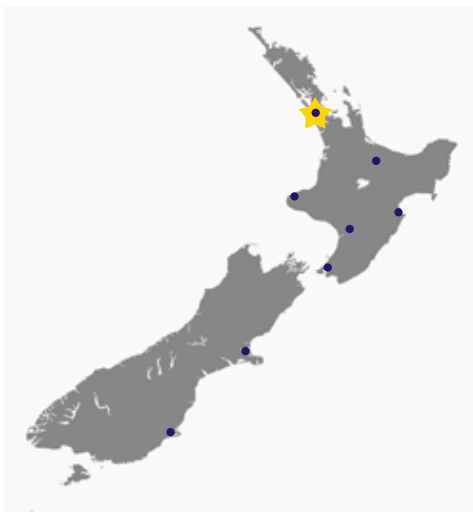

Bin Lifters

With a huge range of wheels and castors, from light duty, heavy duty or very heavy duty, we have every application covered.

Our range includes:

- Pneumatic wheels, including puncture proof tyres
- Very heavy duty castors (up to 3.5 tonne capacity)
- Decorative furniture castors
- Castors for hospital beds and medical equipment
- Specialist castors, including stainless steel, high/low temperature resistant, and so much more.
